Professional profile

Enthusiastic and highly motivated Mathematics and Statistics graduate from the University of Bath, with strong analytical, problem-solving, and critical-thinking skills. Currently working as an Associate in Restructuring, gaining hands-on experience in financial advisory and the use of business analysis to make commercial decisions. Passionate about creating meaningful analytics through the power of data and seeking opportunities to pursue a career in data. Proficiency in SAS, SQL, JMP, R and Excel. Committed to continuous learning and pursuing professional qualifications.

Work experience

Sep 2025-Current **Interpath, Birmingham, Associate**

- Gaining experience in restructuring and insolvency
- Performing general administrative tasks (conflict checks, engaging with clients, preparing correspondence)
- Assisting with trading/wind down operations
- Analysis of financial data, investigating bank statements and report writing of statutory documents
- Managing the midlands and south resourcing, reporting straight to directors and managing directors
- Continuously praised for efficient work, ability to help and train new staff even during busy periods

June 2025-June 2025 **University of Bath, Student Ambassador**

- Collaborated effectively within a small team to manage visitor flow and allow all prospective students the same opportunities throughout the day
- Recognised by the team leader for quickly learning key information and demonstrating enthusiasm and professionalism

Jul 2023-Jul 2024 **Abbott Diabetes Care, Witney, Student Statistician**

- Presented findings my analysis of clinical trials to senior leadership- analysis included bias statistics and survival analysis through the use of a strong data visualisation skillset
- Performed exploratory analysis on large datasets, requiring cleaning and attention to detail to notice patterns amongst the data
- Conducted the most in-house tests in SAS amongst the student cohort alongside making the most improvements to codes- increasing efficiency and creative outputs
- Presented weekly reports, and important data on performance to the statistics team
- Developed organisation and time management skills by working with the charity team to organise events to raise money for MIND Oxford

Sep 2022 – Jun 2023 **Cornish Bakery, Bath, Team Member**

- Used my time management skills to balance part time work with my university studies
- Worked with management in the company to make more accessible and sustainable choices

July 2022 –Sep 2022 **Branston Golf and Country Club, Burton upon Trent, Food and Beverage Assistant**

- Worked within a team to deliver jobs in a time efficient manner and always presented myself professionally

June 2019 – Sep 2021 **Meadowside Leisure Centre, Burton upon Trent, Swimming Teacher Assistant**

- Learnt leadership skills by leading warm ups and occasionally led my own classes
- Dealt with children and parents with additional needs, offering support and quickly adapted to provide strategies to allow the children the best opportunities to learn and progress

Education and qualifications

- **University of Bath** – September 2021- July 2025
 - **Degree subject** – BSc Mathematics and Statistics
Modules Taken: Analysis, Algebra, Probability, Statistics, Multivariable Calculus, Programming, Foundations and Connections, Ordinary Differential Equations and Control Theory, Modelling and Dynamical Systems, Vector Calculus and Mechanics, Medical Statistics, Mathematical biology, Markov Processes, Introduction to Econometrics, Generalised Linear Models, Time Series, Stochastic Processes & Finance, Applied Statistics, Graphs and Networks.
 - Some of my coursework from the units which involved data analytics can be found in my portfolio, a link can be found at the top of my CV.
- **De Ferrers Academy**– 2019-2021
 - **Mathematics, Further Maths, Psychology A Level- A*AA**
- **Paulet High School** – 2014-2019
 - **GCSE's**- 9 GCSES, including grade 8 in Mathematics, Statistics, Biology and English Literature.

Awards and recognitions

- **SEQ Level 1 Swimming Assistant (Teaching)** – Feb 2020
- **100% Attendance throughout 5 years of secondary school**

Skills

- **Problem Solving and Analytical Thinking**- I can solve complex problems by developing strategies and identifying patterns within data.
- **Data Analysis**- Importing data, performing analysis and interpreting results to make strong statistical conclusions.
- **Organisation and Time management**- I worked part time during some parts of university so had to develop techniques to manage my time efficiently. These skills give me the ability to work in a fast-paced environment and manage multiple workstreams at once to a high standard.
- **Communication**- Strong communication skills for collaborating with team members and senior leadership members, using clear and accurate language for understanding.
- **Resilience**- Challenged myself to complete a difficult degree and push my boundaries to learn how to present and make professional connections.
- **Coding**- I have experience using Python and R from my university degree and used SAS, SQL and Macros on placement.
- **MS Office Suite**- Strong experience in using Word, PPT, Excel.
